

Coffee Filter Butterfly Craft

Make Your Own Gorgeous Garden Friend

Materials Needed

1. **Coffee filters, any size**
2. **Watercolor paints**
3. **Paintbrushes**
4. **Pipe cleaners/Chenille stems**

Directions

1. Flatten out one coffee filter on a flat surface, protected from paint.
2. Decorate your coffee filter! Make it as colorful as you'd like.
3. Let the coffee filter fully dry.
4. Once fully dry, make a bow-tie shape by pinching it in the middle.
5. Wrap the pipe cleaner around the center so it cinches the middle. Twist it a few times to secure the wings and make the body. You should also have two “antennae” sticking up.
6. Curl the ends of your pipe cleaner “antennae” in any shape you choose
7. Now you have a beautiful garden friend!
